CLARK ANYWHERE: REMOTE WITHOUT MISSING OUT

What if your child loved going to school?

Made By:
Divyesh Sai Annavarapu
Vishal Chhimpa
Kaushiki Tiwary
Brit Groover

Objective :

Main Objective

Build a clear, scalable **go-to-market** strategy for Clark's live remote and hybrid learning

Grow **qualified enrollment** beyond the hyperlocal radius

Protect community, accountability, and classroom quality

Strategy prioritizes

High-fit student **acquisition** over volume

Awareness among the right families

Clear expectation-setting to **avoid** poor-fit enrollments

Measurable but lightweight tracking

Why Clark School?

Value Propositions

Remote school without missing out on the “school experience”

Second generation family business - “we care”

Flexibility is key - life happens, we adapt

Most Students report feeling safe and accepted

Remote Pricing is affordable - \$17,500 for high school vs \$33,000

Phase I: Now to Fall 2026 Enrollment

Goal: 20 Remote students enrolled for 26-27

Phase 1: Build Foundation & Credibility

Launch a **dedicated Remote** High School webpage

Offer learning innovation **forums / seminar**

Collect **parent testimonials** and **teacher video stories**

Publish a **director-led video** explaining Clark's remote philosophy

Run **awareness-focused IG/FB** ads driving to the Remote page

Collect **feedback and enhance messaging** to boost positive reviews online.

Track early signals: page visits, inquiries, inquiry quality

Website changes :

Use **authentic images** and **videos** to communicate community and engagement effectively.

Present a clear **enrollment journey** to reduce confusion and ensure alignment

Embed classroom **highlight videos** showing remote participation in Clark classes

Position website as **central hub** for social media ads, directing traffic

Clearly **explain program flexibility** for medically challenged students, reinforcing expectations.

Integrate family and teacher testimonials repurposed from **IG/FB content** directly

Publish student-centered **blog content** to clarify fit, expectations, and outcomes.

Website changes : “Remote at Clark”

- Create a **simple, intuitive page structure** so families can quickly find information on academics, support, and admissions.
 - Add a **list of high school classes offered**, along with a **sample weekly timeline** to explain how live classes operate.
 - Clearly explain the **flexibility of the program**, especially for medically challenged students, while reinforcing live attendance expectations
 - Include real **images from classrooms, assemblies, and achievement moments** to visually communicate community and belonging
 - Add a **clear enrollment timeline**, outlining steps from inquiry to enrollment to reduce confusion and misalignment
 - Publish **high-level fee structure information** (or ranges) so families understand financial expectations early
 - Promote **demo days, virtual info sessions, or classroom observation opportunities** to let families experience Clark Remote before applying
 - Use the website as a hub to support **short IG/FB video ads**, linking directly to the Remote High School page for qualified traffic
 - Add **guidelines on how to join a live online class**, supported by short YouTube-style tutorial videos for students and parents
 - Embed **short classroom highlight videos** that show live remote participation in real Clark classes
 - Add **high-level numbers and student profiles** (anonymized) showing the types of students Clark has supported in the past and currently.
 - Integrate **short video testimonials** from families and teachers directly on the website (repurposed from IG/FB).
 - **Student-centered blogs help families understand fit, expectations, and outcomes before they ever apply**

anxiety and
other learning
challenges*

Feb 28th 6pm

A Live Q&A and Skills Workshop for Parents and Students sponsored by

Clark School
Preschool | Elementary | Middle | High School

Join experts Jeff Clark and Kalynn Rooney to discover how a **remote learning program** can bring a supportive, alternative environment directly to your home.

In this session, we move past the "one size fits all" approach to discuss:

- Anxiety: Understanding the root causes of school-based anxiety and creating a "therapeutic environment" that fosters safety and belonging.
- Directed Learning: Why individualized, small-group support is the key to rebuilding a student's confidence and academic momentum.
- Digital Community: How we can replace social pressure with a culture of acceptance and specialized faculty support.

This is about finding a new way to learn.

Whether your child has a formal diagnosis like Dyslexia or ADHD, or is simply navigating the heavy weight of anxiety, this session is for you.

What

- Informational Seminar / Workshops
- keep generalized / not school affiliated
- QR code for Quick registration

Where

- **Bulletin boards:** local mental health clinics, grocery store, libraries (in-person visits)
- Post to **Facebook pages** and additional Facebook communities

Impact

- Shared information for the betterment of all
- "Stay to learn more about our program"

Awareness focused Ads : Short Videos

Strategy :

Core Content Types

1. Short-form video (10–15 seconds)
 - “I still get called on.”
 - “I still go to assemblies.”
 - “I’m remote, but I’m not invisible.”

2. Parent testimonials

- focus on trust, continuity, and accountability before/after narratives

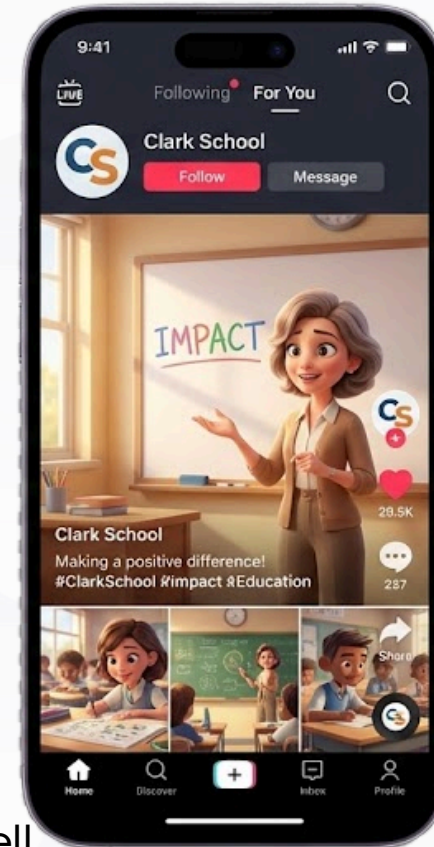

3. Teacher perspectives

- How live remote students are included
- how expectations are maintained

4. Visual explainers

support ladder: Teacher → Directed Learning → Bell

Channel :

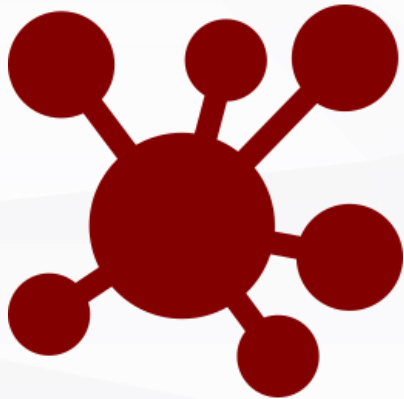

Primary Channels (Invest More)

Facebook & Instagram

- short video ads of class room teaching
- parent-focused storytelling

Word of mouth

- current families
- trusted referrals from WOM

Educational advocates

- pre-filtered, high-fit referrals

Secondary Channels (Selective Use)

- Hospital and pediatric clinic placements
- Therapist and neuropsychologist referrals
- Arts and athletics communities

Deprioritized Channel

- Print media (low performance, low fit)

Phase II: Two-year Plan

Goal: 20 Remote students enrolled for 26-27

Phase 2: Expand Reach

Conferences and conventions

Target sports clubs

Conduct 30–45 day check-ins with new remote families

Student ambassador program

“Emotional pull campaign - why it matters to us

Conference LOI

To the [Conference Name] Selection Committee,

As the landscape of middle and high school education shifts to address the rising crisis in student mental health, the industry is searching for models that do more than just "accommodate." We are looking for models that empower.

I am writing to express my interest in speaking at [Conference Name]. My journey with this work is personal; I am both an alumnus and the current Head of a school dedicated to students who didn't "fit" the traditional mold. Alongside my colleagues **Kalynn Rooney** and **John Cotti**, I have spent years witnessing the transformation that happens when a child finally feels safe enough to learn.

In our session, [Session Name] we would love to share stories and strategies that help bridge the gap between academic pressure and emotional well-being.

Our discussion will focus on:

- **Replacing Shame with Curiosity:** How we can move away from "fixing" a student's deficits and instead start asking what their behavior is trying to tell us about their needs.
- **The Power of a "Mistake-Friendly" Culture:** Creating a classroom where the fear of being wrong is replaced by the excitement of trying again, effectively lowering the "anxiety barrier" to learning.
- **Bringing the Classroom Home:** A look at how our remote learning program acts as a bridge for students who find the physical school building overwhelming, allowing them to rebuild their academic identity from a place of comfort.
- **The Parent-Educator Partnership:** Moving from "difficult conversations" to a shared mission of advocating for a child's unique path, ensuring they feel supported both at home and in the (virtual or physical) classroom.
- **Small Wins, Big Impact:** Practical ways for teachers and clinicians to help students master executive functioning—not as a chore, but as a toolkit for independence.

We believe that when a student feels truly seen and understood, their potential is limitless. We hope to share this vision with your attendees and offer a message of hope for the students who need it most.

What

Sample of letter of interest for speaking at a conference

Where: Don't be shy!

- Apply to as many as you can potentially attend
- Bring people with you for greater networking power

Impact

- Become known to those around you, doing what you do.
- You want to be in the back of their mind at all times.

Phase III: Moving toward asynchronous

Goal: Asynchronous increases geographic reach

Phase 3: Building the Asynchronous Programming

Employee Costs:

- Director of remote learning - \$50K/year
- Tech Support Staff - \$35K/year

Equipment Costs:

- Tech upgrades - \$5K to \$20K
- (hosting platform, data storage, updated hardware)

Ongoing Costs:

- Data Storage, Updates, Maintenance: \$1K to \$5K per year
- Development Cost: \$10K per class

Timeline:

- 0 to 6 months - hiring staff
- 6 month to 2 years - develop courses
- 2 years + new courses / adjustments

Tracking Data to Measure Impact

- Close analysis of sales funnel from open house through enrollment
- Customer acquisition cost?
- Suggested KPIs? ie 20% sales funnel success

Listing of Upcoming Conferences

1. NEASC Student Connections Conference

- **What:** Leadership & student voice conference
- **When:** March 6, 2026
- **Who:** Middle & high school teams
 - [Neasc](#)

2. Massachusetts Partnerships for Youth

- **Who:** Students, educators, school leaders
- **What:** Neurodiversity, youth leadership, student support conferences
 - [May 14, 2026 — Supporting Neurodiverse Students Conference](#)

3. 26 Mayor's Youth Summit (Boston)

- **What:** Civic & youth engagement event for teens: speakers, networking, activities
- **When:** February 21, 2026
- **Who:** Boston youth (age ~14–19) — free event
 - [mayors youth summit](#)

4. MA State Educators Rising Conference

- **What:** Student-oriented educators/student leadership event / competitions
- **When:** March 4, 2026
- **Who:** Middle & high school students / future educators
 - [MA state Educators Rising Conference](#)

5. MASC Day on the Hill 2026 (State House)

- **What:** Student + educator advocacy day focused on policy
- **When:** March 30, 2026
- **Who:** Students, school leaders, advocates
 - [MASC Day on the Hill 2026](#)

6. NAMI Massachusetts Impact Summit

- **What:** Mental health awareness & community impact event
- **When:** March 20, 2026
- **Who:** Students & community partners interested in mental health
 - [NAMI Massachusetts Impact Summit](#)

7. NAMIWalks Massachusetts 2026

- **What:** Mental health awareness walk / public event
- **When:** May 16, 2026
- **Who:** Students & community interested in wellness activism
 - [NAMIWalks Massachusetts 2026](#)
